**Task B**

Some of your friends have been involved in road accidents while riding their bikes to school. Although none of them were seriously injured, you have decided to raise the issue in the school magazine. Write an article of about 200 words with the following title:

*The pros and cons of riding your bike to school*

Include the following points:

- physical exercise ↔ polluted air
- environment friendly ↔ uncomfortable
- cheap and fast ↔ danger of getting involved in an accident,

and give your opinion.
